Fire Prevention

October 1, 2008

Board of Directors San Ramon Valley Fire Protection District San Ramon, California

We are pleased to present the San Ramon Valley Fire Protection District's (SRVFPD) Comprehensive Annual Financial Report (CAFR) for the fiscal year July 1, 2007 through June 30, 2008.

This report has been prepared by the Administrative Services Department following the guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA) and is in conformance with generally accepted accounting principles for state and local governmental entities established by the Governmental Accounting Standards Board (GASB). Responsibility for the accuracy, completeness and fairness of the presented data and the clarity of presentation, including all disclosures, rests with the management of the District.

THE REPORTING ENTITY - PAST AND PRESENT

History and Formation of San Ramon Valley Fire Protection District

The San Ramon Valley Fire Protection District is an outgrowth of many years of maturation. Its early beginning took place 96 years ago at a meeting of the Danville Improvement Club. The meeting held on March 19, 1912, was comprised of the leading ladies and men of Danville. At this meeting, it was decided that a volunteer fire department needed to be organized. The idea was unanimously approved, and the name Danville Farm Defense Fire District was established. In 1921, a state law permitted the organization of special fire districts and empowered them with the authority to levy a tax for their support. Thus, on September 6, 1921, the Danville Farm Defense Fire District became the Danville Fire Protection District, an independent fire district and a political subdivision of the State of California. The official boundaries were re-designated to encompass Alamo, Danville, Sycamore and Green Valley School Districts, an area of approximately fifty (50) square miles.

In 1963, Contra Costa County reorganized its East County Fire Protection District into the San Ramon Fire Protection District, an independent district. In December 1979, Local Agency Formation Commission (LAFCO) initiated the consolidation of the Danville Fire Protection District and the San Ramon Fire Protection District. On July 1, 1980, with the merger complete, the two Districts were renamed the San Ramon Valley Fire Protection District (SRVFPD). The new District serviced the communities of Alamo, Blackhawk, Danville, Diablo and San Ramon, within a 70 square mile area. The organization was comprised of 4 fire stations, 27 emergency vehicles and 71 employees. With the reorganization of these two districts, the newly formed District became governed by 5 locally elected Board of Directors, independent of the County Board of Supervisors.

Some ten years later, the San Ramon Valley Fire Protection District and the Tassajara Fire Protection District initiated a merger process. In January 1991, LAFCO completed the annexation of all territories of the Tassajara Fire Protection District and transferred them to the San Ramon Valley Fire Protection District, which included Tassajara Valley and the southern boundary of Morgan Territory. Simultaneously, the Tassajara Fire Protection District was dissolved.

In July 1997, the San Ramon Valley Fire Protection District and the City of San Ramon moved forward with an annexation of the Dougherty Regional Fire Authority to the SRVFPD. With this annexation, the District extended its fire service boundary to the Contra Costa/Alameda County line.

Over the last eleven years, the District has accomplished many notable achievements, from a number of administrative staffing enhancements to providing new station facilities for its customers, along with improved apparatus in the field. These successes have proven to be beneficial to the District's internal customers (personnel), but most importantly, to the community which the District serves.

The San Ramon Valley Fire Protection District's evolution over the past 96 years is remarkable and its endeavors impressive. Below is a summary of key milestones and accomplishments since its inception.

March 1912 A "Fireman's Ball" was held to finance the Danville Farm Fire Defense District. The net proceeds of \$100.00 realized at the event were deposited into the first bank account.

April 1922 The Danville Fire Protection District (DFPD) purchased its first fire truck for \$4,140. The new truck was a Reo-American La France, which replaced a trailer equipped with ten 10-gallon milk cans full of water. The volunteer, who got to the trailer first, hitched it to their vehicle and pulled it to the fire. Gunnysacks were soaked in the water and then used to beat out the fire.

July 1925 The DFPD purchased for \$600 the site of the first firehouse at 150 N. Hartz Avenue, Danville. The firehouse was completed and accepted on December 2, 1925.

In 1928 A donated Dodge truck was converted into fire truck #2. October 1936 The DFPD volunteers began receiving 50 cents to answer a call and 50 cents per hour thereafter. In 1941 A two-way radio was installed between the firehouse and the County Sheriff, linking Danville with the rest of Contra Costa County. May 1942 At the height of the war years, government defense funds were provided to have a man sleep in the firehouse. October 1942 The DFPD entered the County Mutual Aid plan. January 1958 A second firehouse was completed and located in Alamo. January 1966 The DFPD established its first training program with the objective of developing new recruits with the ability to properly, safely and efficiently use the tools and equipment normally carried on fire apparatus. July 1969 The DFPD purchased land to relocate and construct Station 1 at 800 San Ramon Valley Boulevard in Danville and renamed it Station 31. February 1975 The DFPD completely modernized its communications system. May 1975 The DFPD received its first ambulance donated through the "Helen Howell Fundraiser." January 1977 The DFPD received an improved Class Rate from that of 5, issued in 1962, to a Class 4 rating, which illustrates an adequate level of fire protection facilities is being provided and maintained within the rapidly growing communities protected. January 1978 As a result of population growth, emergency medical response service for the DFPD increased 42% over those in 1976. February 1984 The San Ramon Valley Fire Protection District (SRVFPD) began staffing its ambulance units with paramedic service through a public/private partnership with John Muir Hospital. July 1989 Issued \$13,100,000 Certificates of Participation for the acquisition and construction of certain land, equipment and capital improvements within the District. The primary projects included the construction of Station 36, Station 38 and the Administrative Office Building, and the remodeling of Station 31 and Station 33.

April 1992 Station 36, located in Tassajara Valley was staffed to provide 24-

hour protection, formerly a volunteer-staffed station under the

former Tassajara Fire Protection District.

May 1993 Refinanced Certificates of Participation issued in 1989 in an

aggregated principal amount of \$10,500,000.

February 1995 A public safety trailer called the "Safety House" was added to the

District's fleet, allowing the Fire Prevention Division to teach

home fire safety to school age children.

July 1997 The SRVFPD published its first community newsletter, serving

38,000 households in the area. The newsletter provides timely

information on seasonal fire prevention issues.

July 1997 The SRVFPD negotiated a "Single Paramedic Program" with

Contra Costa County Emergency Medical Services, beginning the

conversion to a Firefighter/Paramedic ambulance service.

September 1997 The SRVFPD's Communication Center became accredited for pre-

arrival medical instructions and call triaging. The District has

consistently maintained this accreditation.

February 1999 As a result of a rating review, the Insurance Services Office (ISO)

> granted the SRVFPD an upgrade from Class 3 to Class 2 in the urban/suburban area. This improved rating tremendously impacts the community the District serves. Commercial buildings can save from 2.5% to 4.5% on their base fire insurance rates. Nationally, only 1% of agencies hold this prestigious achievement. District is a Class 5 in the rural areas and a Class 8 in the very

remote rural areas.

July 1999 The Board of Directors designated the Fire Chief as the first

Treasurer for the District.

October 1999 The SRVFPD gained "fiscal management" independence from

> Contra Costa County for financial reporting services. With the hiring of the District's first Chief Finance Officer in March of 1999, an "in-house" payroll, accounting and cash management system commenced, terminating the District's contractual

agreement with Contra Costa County.

July 2000 The SRVFPD entered into a seven-year contract with Local 3546,

a Memorandum of Understanding covering July 1, 2000 through

June 30, 2007.

September 2000 A Chaplaincy program, operating in a non-denominational setting,

was instituted with its primary purpose to assist District personnel

began "outreach" assistance into the community. January 2001 The District formed an official Honor Guard with the mission to provide honor and respect to firefighters who have fallen in the line of duty serving their community and country and to instill respect for national, state and local flags. February 2001 Reclassified two Fire Prevention Inspector positions to Deputy Fire Marshal, reorganizing the internal structure of the Division to better service the customer. June 2001 The SRVFPD broke ground for Station 30, located in Dougherty Valley. This turnkey facility, built and equipped by local developers, opened on June 1, 2002. November 2001 The District began staffing every first run unit with one Paramedic for every emergency call. December 2001 The District prepared its first Comprehensive Annual Financial Report (CAFR) for evaluation and award consideration by the Government Finance Officers Association and the California Society of Municipal Finance Officers Association. November 2002 The District held its first annual Employee Recognition Dinner and Awards Ceremony to acknowledge all the efforts put forth by each and every employee. June 2003 The Board of Directors adopted a new "mission" statement as a result of the strategic planning process. June 2003 Refinanced Certificates of Participation issued in 1993 for an aggregated principal amount of \$8,910,000. August 2003 The District's Rescue Division was awarded the Certification as an Office of Emergency Services (OES) "Medium Rescue Unit." This certification is an important acknowledgement of the District's ongoing effort to provide emergency services during major disaster incidents. March 2004 The District instituted the Citizen's Emergency Response Team (CERT) in coordination with the Town of Danville, City of San Ramon, San Ramon Valley Unified School District and Contra Costa County Office of Emergency Services. July 2004 The District placed into service a Type 1 Communication Support Unit, the first totally self-contained mobile communications post in Contra Costa County.

and their families for life needs. During the year, the program

March 2005

The SRVFPD, along with the American Heart Association, Contra Costa County Emergency Medical Service Agency and the San Ramon Regional Medical Center, started the Public Access Defibrillation (PAD) Program. The program places Automatic External Defibrillators (AEDs) in schools, public buildings and businesses.

June 2006

Issued \$9,485,000 Certificates of Participation for the acquisition and construction of certain land, equipment and capital improvements within the District. The primary projects included the relocation and construction of Station 36, two new stations in Alamo (east and west) that will replace the current Station 32 and the construction of an apparatus storage building at Station 31.

June 2007

The District hired its first full-time Technology Manager, and conducted a complete reassessment of the District's Intergraph Computer-aided Dispatch System. This reconfiguration of the matrix, deployment plan and dispatch workflow was the most significant enhancement to the District's Computer-aided Dispatch System since its installation in 1993. Going live with the new model was the culmination of months of planning, training and implementation, streamlining and improving the reliability of many dispatch operations.

July 2007

The District staffed an additional two person ambulance to its' emergency response fleet. This ambulance and two person crew are stationed at Station 31.

October 2007

The Fire Prevention Division prepared and adopted an ordinance for implementation of the new 2007 California Fire Code. This involved many months of review as the new code differed greatly in many ways from the prior code. The resulting draft document was subjected to public hearings and meetings of directly impacted home builders and other stakeholders. After several meetings and in consideration of other laws impacting application of certain provisions the document was presented for adoption by the Fire District Board of Directors in October 2007.

The most significant element contained in the ordinance, for this Fire District, was the lowering from 5,000 sq. ft. to 3,600 sq. ft. the threshold for installation of residential sprinkler systems. This requirement became effective July 1, 2008.

February 2008 The District began

The District began construction of the new fire Station 36, an apparatus storage building at Station 31, and design of the new fire Station 32. In December 2007 the three new Tractor-Driven Ladder trucks (Tiller-trucks) were placed in service.

The District Today

The San Ramon Valley Fire Protection District is an autonomous Special District as defined under the Fire Protection District Law of 1987, Health and Safety Code, Section 13800, of the State of California.

The SRVFPD is responsible for providing the highest level of emergency and nonemergency services to the community in an effort to protect life, the environment and property.

A five member Board of Directors, elected by their constituents and each serving a fouryear term, governs the District. The Directors meet once a month at the Administrative Office, headquartered in San Ramon, to determine overall policy for the District. Special committee meetings provide oversight in four areas: Personnel, Finance, Facilities and Long Range Planning/Fire Prevention.

The Fire Chief oversees the general operations of the District in accordance with the policy direction prescribed by the Board of Directors. The Fire Chief serves as the Treasurer for the District. At present, the Fire Chief is supported by his executive staff, consisting of the District Clerk, a Division Chief/Fire Marshal, two Assistant Chiefs and the Administrative Services Director.

The two Assistant Chiefs, Division Chief/Fire Marshal, and the Administrative Services Director are responsible for four distinct operational functions of the District. The Operations Assistant Chief is responsible for the delivery of emergency services to the citizens and public, overseeing the training and education of District personnel and the design of vehicles and apparatus. The Assistant Chief of Support Services, ensures that current and future information management systems for communication are adequate, and facilities, equipment, apparatus and vehicles are maintained and updated. The Division Chief/Fire Marshal ensures that prevention services are efficient and effective, and oversees code compliance, exterior hazard abatement and provides public education to citizens and customers of the District. The Administration Services Director oversees personnel standards and procedures, labor negotiations and workers' compensation, and is responsible for the District's financial policies, systems and procedures, including cash management and investments, accounting and budgeting, accounts receivable/payable, payroll, attendance, purchasing, risk management and fixed assets.

The District employs 195 personnel, in addition to approximately 50 volunteers for four separate volunteer programs. The District maintains ten Fire Stations and one Administrative Office Building, all strategically located within the District. Of the ten Stations, nine Stations house paid firefighters and one remote station is staffed by 15 volunteer personnel. There are also approximately 11 reserve firefighters. The District staffs 15 companies, including structure and wildland engines, ladder trucks, ALS

ambulances and specialized Haz Mat, Rescue, Communications and other support units. The District staffs four additional companies with volunteer firefighters at Fire Station 37 and Fire Station 40 in the Morgan Territory. In addition, the District operates its own Communications Center staffed daily with three dispatchers. All other Administrative personnel reside at the Administrative Office.

<u>Internal Control</u> - In developing and evaluating the District's accounting system, priority is given to the accuracy of internal accounting control. Internal accounting controls are designed to provide reasonable assurance regarding the safeguarding of assets against loss from unauthorized use or disposition, the accuracy and reliability of accounting data and the adherence to prescribed managerial policy. The concept of reasonable assurance recognizes that the cost of control should not exceed the benefits likely to be derived, and the cost-benefit analysis requires estimates and judgments by management.

Accounting System and Budgeting Controls - The District's accounting and budgeting records for the basic financial statement in this report conform to generally accepted accounting principles (GAAP) according to standards established by the Governmental Accounting Standards Board.

The District maintains extensive budgetary controls. The District's Annual Budget, adopted prior to July 1, provides the overall control of its revenues and expenses, including appropriations (budgeted expenses) on a line item basis and the means of financing them (budgeted revenues). The District's accounting system produces monthly reports on expense activity that assist Department/Division Managers monitor their activities and programs. These reports are also reviewed by the Finance Supervisor and the Administrative Services Director to assure budgetary compliance.

As a recipient of federal, state and county financial assistance, the District is responsible for ensuring that an adequate control structure is in place to comply with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by the Finance staff of the District.

Management's Discussion and Analysis (M D & A) - GAAP requires that management provides a narrative introduction, overview and analysis to accompany the basic financial statements in the form of M D & A. This letter of transmittal is designed to complement the M D & A and should be read in conjunction with it. The District's M D & A can be found immediately following the report of the independent auditors.

Audit of Financial Statements - The District contracts for an independent audit each year to provide reasonable assurance that its financial statements are free of material misstatements. This annual audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. The District engaged the accounting firm of Maze & Associates to perform the audit of its financial statements. The auditor has issued an unqualified opinion on the District's financial statements indicating they are fairly presented in conformity with GAAP.

Single Audit - The District engaged the accounting firm of Maze & Associates to perform the audit of the expenses of federal awards required by the Single Audit Act of 1984 and Amendments of 1996, and the related OMB Circular A-133. As part of the Single Audit, tests were made to determine the adequacy of internal controls related to the administration of federal financial assistance programs and to determine that the District had complied with applicable laws and regulations. A Single Audit report was not required for fiscal year 2007-08.

SERVICE AREA AND SERVICES

The District's service area encompasses approximately 155 square miles, covering the communities of Alamo, Blackhawk, the Town of Danville, Diablo, the City of San Ramon, the southern area of Morgan Territory and the Tassajara Valley.

Within the boundaries of the District are expansive wildland areas, large single and multifamily residential units, hotels, a hospital, numerous convalescent/assisted living facilities, equestrian areas, hiking trails, rock climbing areas and a facility housing a low-level nuclear reactor. With such diversity, it is mandatory the District be equipped with proper apparatus and appropriately staffed to handle all emergencies.

The total population serviced by the District exceeds 160,571. On business days, the figure grows by another 30,000 to include the personnel employed in the Bishop Ranch Business Park, a 585-acre development located in San Ramon. Since its inception in 1984, the Bishop Ranch Business Park has evolved into a nationally recognized premier business center, comprised of over 550 companies, from established Global 500 companies to innovative start-ups.

The District's philosophy with regard to fire, medical or hazardous material emergencies has been one of a strong, rapid deployment of appropriate resources to mitigate any emergency, as recognized by a Class 2 Insurance Service Office (ISO) rating. The District's goal is to maintain an overall response time of 5 minutes or less, 90% of the time. Under normal conditions, there are 15 paid emergency response companies that can be deployed for an emergency within the boundaries of the San Ramon Valley Fire Protection District. In addition, the District serves as the primary Emergency Operations Center (EOC) location for the Town of Danville and the City of San Ramon.

When the first units for a structure fire are dispatched, the three closest engines, two ladder trucks, an ambulance company and the shift Battalion Chief are assigned. In some of the rural areas of the District where hydrants are not available, the response includes water tenders.

The District's Communications Center provides its medical pre-arrival instructions under the auspices of Contra Costa County Emergency Medical Services. Dispatchers are highly trained to assist the caller in life saving techniques (CPR with respiratory emergency, cardiac emergency, strokes, etc.) prior to the arrival of the emergency responders. In 1997, the San Ramon Valley Fire Protection District Communications Center became recognized as the world's seventh accredited emergency medical dispatch center. This award was achieved and has been maintained through conscientious

adherence to proven emergency medical dispatch protocols. The District has been reaccredited in 2000, 2004 and 2007. The next accreditation is due in December 2011.

In the spring of 1995, the District began staffing selected units with Firefighter/Paramedics to provide citizens with a higher level of service. Currently, the District has a total of 65 paramedics, staffing a paramedic on every unit at all times. The District's medical calls receive a "First Responder" response that includes pre-arrival instructions by dispatch, as the first step in the treatment process. A patient is then treated by a team, including at least one paramedic, who arrives in a fire engine as the closest unit to the emergency. The "First Responder" might also be a paramedic on an ambulance, depending on the incident location. Patients are evaluated and, if necessary, transported by a paramedic-staffed District ambulance. In some cases, transport via air ambulance is necessary. The District maintains close communications with several air ambulance services in the area. District personnel have been trained and are committed to their obligations under the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and its regulations known as the "Privacy Rule" for the protection of individually identifiable health information.

The District must be prepared for emergencies and potential exposure to hazardous materials in the area of the Interstate 680 corridor that passes through the San Ramon Valley. Trucks and other vehicles carry virtually every known hazardous material to points within the Greater Bay Area. The District maintains a hazardous materials team composed of members from the Suppression staff that are highly trained as hazardous materials technicians and specialists.

An important non-emergency activity for suppression/ambulance personnel which benefits the public is training. The District, through its Training Division, strives to continually provide training programs that are both innovative and relevant. All District Firefighters are trained EMTs (1A) and State Certified Firefighters (1) with specialized defibrillator training. For programs such as Hazardous Materials, Emergency Medical, and Confined Space Rescue Operations, re-certification is mandated by State and/or Federal law. Other specialized training programs cover such diverse topics as Structural and Wildland Firefighting Operations, Urban Search and Rescue skills, Disaster Preparedness, Night Drills and Auto Extrication skills using various tools and techniques.

The District's Training Division is also actively coordinating periodic training with many local agencies, such as the Town of Danville, the City of San Ramon, Mt. Diablo State Park and Cal Fire. Some of the classes offered to these agencies and the public are in Hazardous Materials, Emergency Operations Center Training, Citizen Emergency Response Team (CERT), CPR certification and re-certification.

The SRVFPD provides full service fire prevention functions. The Fire Prevention Division works closely with various community agencies, utility providers and builders to facilitate all construction activities in the District. The Division performs inspections for code compliance, weed abatement, fire suppression systems, fire warning, smoke control and water systems to ensure those facilities meet fire safety codes.

The District has enacted a comprehensive fire prevention ordinance that includes sprinkler requirements for most commercial buildings and residential buildings exceeding 3,600 square feet. This approach has led to a higher degree of fire and life safety and reduced insurance costs.

The District's public education programs, providing safety and disaster preparedness information, extend beyond the traditional school safety programs by reaching out to the elderly and business communities. The traditional fire safety school program has been expanded to provide a 30-minute in-classroom teaching activity for all classes 1st through The interactive and informative presentations reach more than 6,000 students The District has a non-traditional educational commitment in the form of the annually. Tassajara One-Room School House program. This 115-year-old "treasure" became an asset of the District with the annexation of the Tassajara Fire Protection District. The District has restored the school and the site to safely accommodate community events. Its special function is to serve as a facility for third grade students to experience a day in an 1888 one-room school, staffed by the volunteers of the San Ramon Valley Museum. These dedicated docents provide a historical background about the San Ramon Valley in an effort to educate children about the past. The residents of the area hold close ties to this prized historical landmark and wish to protect and preserve its heritage. The District has played an integral role in the endeavor. Through handout materials, all activities carry public safety messages or prevention instructions provided by District staff.

The District works closely with community organizations, such as service clubs and local Chambers of Commerce, for distribution and installation of smoke detectors for newborn babies and the elderly and neighborhood disaster preparedness activities for the entire area. Supplemental disaster preparedness training is available to schools and neighborhood groups who have completed steps for their own personal preparedness (i.e. reduction of non-structural hazards, food and water supplies for 72 hours.) The program's intent is to enable citizens to survive and take care of themselves during and after a disaster when emergency resources are overwhelmed. The District has accelerated its community training activities with the CERT (Community Emergency Response Team) program. The goal of the program is to have CERT members geographically located within the District and trained to assist their neighbors or co-workers following a natural catastrophe when professional responders are not immediately available to help.

The District offers supportive training at no charge (for groups of 20 or more) in three areas: Fire Prevention/Suppression Techniques, Survival First Aid/Triage and Damage Control/Light Search and Rescue.

The San Ramon Valley Fire Protection District partners with the City of San Ramon and the Contra Costa County Sheriff's Department in supplying gas and diesel fuels for City and County vehicles. The District also leases space to various tenants to erect and operate communication facilities (Utility Easement Towers) at certain stations within the District.

APPARATUS

The San Ramon Valley Fire Protection District's fleet is made up of emergency vehicles/apparatus which must always be available and kept in a state of readiness. Among these resources are: Nineteen Type 1 engines, three Type 1 Tractor Driven Aerial Ladder Trucks (105'), one reserve ladder truck, ten Wildland units (eight Type 3 engines and two Type 4 engines). For rural responses, the District is equipped with: One 1,500 gallon all-wheel water tender (with 60 gallons of AFFF foam), one 2,800 gallon water tender with a 3,000 gallon porta-tank, one 2,500 gallon all-wheel-drive water tender, which carries Class A and AFFF foam with portable pumps and tanks.

The District's Type 1 engines, Type 3 engines and all trucks carry Advanced Life Support (ALS) emergency medical equipment, including oxygen, defibrillator units and ALS medications. In addition, these vehicles are fully equipped to respond as needed to mitigate any emergency including fire, rescue, hazardous material spill or vehicle accident.

A Type 1 Communications Support Unit, which is a totally self-contained mobile communications post, provides an all risk resource for the District and surrounding agencies. This mobile unit is specifically designed to provide the rigidity needed to operate on the steep fire roads it may encounter and has an extra 20" raised roof for a stand-up work area. The apparatus is equipped with four dispatch positions, three separate sources of power, a technology area, a small conference room for planning and operations, a restroom and a small kitchenette. The primary operation of the unit is accomplished through a cadre of Communications Volunteers who are specifically trained to operate the technology of the unit, as well as trained to drive the vehicle. In addition to two Communication Specialists, the operating plan calls for an Incident Dispatcher to accompany the unit when it is deployed. The SRVFPD and Contra Costa County Fire Protection District employ a number of personnel who have been trained as Incident Dispatchers for the unit. The unit has been a valuable resource for several mutual aid events since being placed in service in 2004.

The District has five Advanced Life Support modular ambulances all of which are equipped with Hurst tools and rope rescue equipment. All the units are equipped to meet the needs of paramedic service. In addition, the District maintains two reserve ambulances and a multi-casualty unit that can be placed into service.

The District's Breathing Support Unit is a multi-functional piece of equipment that can fill both high and low pressure air bottles, with an air storage capacity capable of filling 100 bottles. The unit is equipped with large pop-up scene lights, salvage equipment, medical supplies and other items, such as hot coffee, soups and beverages for the support of crews working on an extended incident.

Through the Homeland Security Grant process, the District acquired a state-of-the-art emergency response vehicle for its Type II HazMat team. The crew and vehicle provide assistance for a wide variety of calls, such as: spills, abandoned chemicals, carbon monoxide emissions, natural gas leaks, household chemical issues, structure fires, pipeline ruptures, vehicle accidents involving tankers and industrial accidents. The

apparatus is stocked with the most modern hazardous materials detection equipment, advanced life support supplies and has a computer link to a hazardous materials information line.

The District's Urban Search and Rescue Unit carries a complete complement of ropes, hardware and rescue baskets for utilization in areas of high peaks and crevices or during earthquake operations or other natural disasters. It also carries on-board an air-compressor for various pneumatic tools. This unit meets the State OES standards and has been certified as a medium rescue apparatus.

Along with an aggressive maintenance program, each of the District's fire engines goes through an extensive rebuild at half-life. With the average life of a fire engine being 20 years, the District refurbishes each engine after approximately 10 years. At this time, the vehicle is repainted and equipped with state-of-the-art equipment. For new equipment, a purchasing committee is formed to review or write specifications, seek public bids and follow the vehicle through the build-up and delivery processes.

SPECIAL ACHIEVEMENT

<u>Reserve Firefighter</u> - The goal of the Reserve Program is to create a pool of highly trained personnel who are capable of assisting the District's full-time personnel in meeting the operational needs of the District. Secondarily, the program creates a pool of potential candidates for hiring as full-time professional firefighters/paramedics.

AWARDS

The Government Finance Officers Association of the United States of America and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to San Ramon Valley Fire Protection District for its fiscal year 2006-2007. The Certificate of Achievement is presented to those government units whose annual financial reports are judged to adhere to program standards and represents the highest award in government financial reporting.

ACKNOWLEDGEMENT

The preparation of this report reflects the combined and dedicated effort of SRVFPD's staff. We especially want to recognize the Finance staff and the auditors for their contributions to provide complete and reliable information for the stewardship of public funds.

We would like to take this opportunity to express our thanks and sincere appreciation to the Board of Directors for their continued support and trust.

SUMMARY

The San Ramon Valley Fire Protection District's leadership and its staff bring an effective combination of skills, experience and dedication to carry out the District's mission:

"IN THE SPIRIT OF OUR TRADITION, WE STRIVE FOR EXCELLENCE, RESPECTFULLY SERVING ALL WITH PRIDE, HONOR AND COMPASSION"

As stated in the Strategic Plan, San Ramon Valley Fire Protection District is committed to these goals:

- Service Provide the highest level of emergency and non-emergency services to the community in an effort to protect life, the environment and property
- Fiscal Management Provide sound and responsible fiscal management
- Culture Develop and maintain a culture where all individuals feel valued, have a sense of ownership and are motivated to continuously improve their knowledge, skills and abilities
- Organization Efficiency Ensure organizational efficiency and effectiveness in all decisions, processes and communications

Sincerely,

Craig Bowe Fire Chief

Robert Leete

Administrative Services Director

Tuanita Philapil Finance Supervisor

Certificate of Achievement for Excellence in Financial Reporting

Presented to

San Ramon Valley
Fire Protection District
California

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2007

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of the San Ramon Valley Fire Protection District San Ramon, California

We have audited the financial statements of the governmental activities and each major fund of the San Ramon Valley Fire Protection District as of and for the year ended June 30, 2008, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free of material misstatement. An audit includes examining on a test basis evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion the financial statements referred to in the first paragraph present fairly in all material respects the respective financial position of the governmental activities and each major fund of the San Ramon Valley Fire Protection District at June 30, 2008 and the results of its operations and the respective budgetary comparisons listed as part of the basic financial statements for the year then ended, in conformity with generally accepted accounting principles in the United States of America.

Management's Discussion and Analysis is not part of the basic financial statements but is required by the Government Accounting Standards Board. We have applied certain limited procedures to this information, principally inquiries of management regarding the methods of measurement and presentation of this information, but we did not audit this information and we express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The supplemental section listed in the Table of Contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. This information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The Introductory Section and Statistical Section listed in the Table of Contents was not audited by us, and we do not express an opinion on this information.

MANAGEMENT'S DISCUSSION AND ANALYSIS (M D & A)

Our discussion and analysis of the San Ramon Valley Fire Protection District provides the reader with an overview of the District's financial position and performance for the period ending June 30, 2008. The M D & A describes the significant changes from the prior year that occurred in general operations and discusses the activities during the year for capital assets and long-term debt. The discussion concludes with a description of currently known facts, decisions and conditions that are expected to impact the financial position of the District's operations. We encourage the reader to consider the information presented here in conjunction with the additional information furnished in our letter of transmittal.

FINANCIAL HIGHLIGHTS

Government-wide

- The District ended its fiscal year with net assets of \$48,086,129.
- The total Program Expenses were \$52,406,884.
- The total Program Revenues were \$3,104,784.
- The total General Revenues were \$51,496,868.
- The change in Net Assets represents an increase of \$2,194,768 in revenue over expenditures.

General Fund

- The General Fund operating revenues exceeded expenses by \$5,127,018.
- The actual resources received in the General Fund were greater than final budget by \$150,442, while actual expenses were less by \$229.
- At the end of the current fiscal year, unreserved, but designated fund balance for the General Fund was \$35.865.236 or 66 % of total revenues.

ANNUAL REPORT OVERVIEW

This annual report consists of a series of financial statements. The District's basic financial statements are comprised of three components: Government-wide financial statements, Fund financial statements and Notes to the basic financial statements. This report also contains supplementary information and statistical data in addition to the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements provide the reader with a longer-term view of the District's activities as a whole and comprise the Statement of Net Assets and Statement of Activities. The manner of presentation is similar to a private-sector business.

The Statement of Net Assets presents information about the financial position of the District as a whole, including all its capital assets and long-term liabilities on the full accrual basis. Over time, increases or decreases in net assets is one indicator in monitoring the financial health of the District.

The *Statement of Activities* provides information about all the District's revenues and expenses on the full accrual basis, with the emphasis on measuring net revenues or expenses of each specific program. This statement explains in detail the change in Net Assets for the year.

All of the District's activities in the Government-wide financial statements are principally supported by taxes, intergovernmental revenues and fire-related charges, i.e. ambulance services and inspection fees. The government activities of the District include general government and interest on long-term debt.

The government-wide financial statements use the full *accrual basis* of accounting method which records revenues when earned and expenses at the time the liability is incurred, regardless of when the related cash flows take place. These statements include the District itself (known as the primary government), and the activity of its legally separate component unit, the San Ramon Valley Fire Protection District Financing Corporation. Because the District Board acts as the governing board for the Corporation and because they function as part of the District government, the activities are blended with those of the primary government.

The government-wide financial statements can be found on pages 14-15 of this report.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing primarily on the short-term activities of the organization. The Fund Financial Statements measure only current revenues and expenditures and fund balances, excluding capital assets, long-term debt and other long-term obligations.

All of the District's basic services are considered to be governmental activities. San Ramon Valley Fire Protection District's services are supported by general District revenues such as taxes, ambulance services and inspection fees. In the District's case, the four funds (General Fund, Capital Projects Fund, Special Revenue-Equipment Replacement Fund and Debt Service Fund) are presented individually.

Government funds focus on how money flows into and out of the fund and the balance left at year-end available for spending. These funds are reported using an accounting method called the *modified accrual* method, which measures cash and all other financial assets that can readily be converted to cash. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. We describe the relationship (or

differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in a reconciliation following the fund financial statements or Note #7.

Notes to the Basic Financial Statements. The notes provide additional information that is essential to the reader for a full understanding of the data provided in the Government-wide and Fund Financial Statements.

Other Information. In addition to the Basic Financial Statements and accompanying notes, this report also presents certain Required Supplementary Information such as Budgetary Comparison Schedules and a Statistical Section, providing financial tables conforming to GASB 44 standard requirements and historical trend data on the District.

FINANCIAL ACTIVITIES OF THE DISTRICT AS A WHOLE

This analysis focuses on the net assets and changes in net assets of the District's Governmental Activities (Tables 1, 2 and 3), as presented in the District-wide Statement of Net Assets and Statement of Activities that follow.

Governmental Activities

Table 1 Governmental Net Assets at June 30, 2008 (in thousands)

	Governmental Activities	
	2007	2008
Cash and investments	\$ 46,791	\$ 46,606
Other assets	798	480
Capital assets	25,347	27,538
Total assets	72,936	74,624
Long-term debt outstanding	22,019	20,388
Other liabilities	5,026	6,150
Total liabilities	27,045	26,538
Net assets:		
Invested in capital assets, net of debt	11,403	13,404
Restricted	9,441	7,604
Unrestricted		
Debt issued to finance capital assets held by others and		
other unrestricted net assets	25,047	27,078
Total net assets	\$45,891	\$48,086

The following points explain the major changes impacting net assets as shown in Table 1:

- Cash and investments decreased by \$184,905 from last year. This was due to the use of funds in Capital Projects for major projects in progress.
- Other assets decreased by 39% due to the collection of outstanding accounts receivables.
- Other liabilities increased by 22% or \$1,124,408, related to A/P, payroll accrued and claims payable at June 30, 2008.
- Net assets invested in capital assets, net of related debt, increased by \$2,001,292, due to the purchase of land from the developer as agreed upon on July 23, 2002, adjoining property for the new fire station, and equipment placed in service (see Note 3).
- Restricted net assets include: (1) The Reserve Fund for the 2003 Refunding Certificates of Participation amounts to \$746,322 (2) The Reserve and Project Funds for the 2006 Capital Improvement amounts to \$604,074, \$6,253,977, respectively. All of these funds for both Certificates of Participation are held with the Trustee at U S Bank.
- Unrestricted net assets is the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants or other legal requirements. Unrestricted net assets of \$27,077,791 are available for operations and other expenses approved by the District Board of Directors.

Fiscal Year 2008 Government Activities

Based on GASB 34 revisions to the format of the Fund Financial Statements, only the individual major funds are presented, with non-major funds combined in a single column. Table 2 summarizes the combined activities and the narrative that follows describes the individual program expenses, program revenues and general revenues in more detail.

Table 2 Changes in Governmental Net Assets (in thousands)

	2007	2008
Expenses		
Public Safety – Fire	\$45,810	\$51,547
Interest on long term debt	839	860
Total Program Expenses	46,649	52,407
Revenues		
Program Revenues:		
Operating grants and contributions	732	808
Capital grants and contributions	0	0
Charges for services	2,261	2,297
Total Program Revenues	2,993	3,105
General Revenues:		
Taxes:		
Property taxes	48,522	49,729
Use of money and property	1,789	1,723
Other revenue	22	45
Total General Revenues	50,333	51,497
Total Revenues	53,326	54,602
Change in Net Assets	6,677	2,195
Beginning Net Assets	38,465	45,891
GASB 34 Implementation Adjustment (Note 3B)	749	0
Ending Net Assets	\$45,891	\$48,086

Expenses

The Public Safety expenses totaled to \$51,546,692 for fiscal year ending 2008. The salary and benefit category, totaling \$43,359,987, grew by 13.4% to cover salary increases, the addition of one 2-person ambulance, medical insurance premiums and retirement costs. The remaining operating expenses can be categorized into five main groupings: central garage, repairs and maintenance, rents and leases, professional and other services and supplies and utilities. These services and supplies totaled to \$5,660,989, an 18.3% increase from the prior fiscal year.

The annual depreciation expense was \$1,931,562, change in compensated absences \$300,416, and change in claims payable \$293,150.

The "Interest on the Long Term Debt" expenses reflect the interest paid in the amount of \$860,192 on the 2003 COP, 2006 COP, and Lease Purchase Agreements Schedule #2, and #3.

Program Revenues

During the fiscal year, the District received its annual allotment from Measure H First Responder funding in the amount of \$19,787. The District's portion of this element of the Measure is based on the number of local benefit units and submission of proof of compliance for purchase of first responder medical equipment, medical supplies and EMS training.

The District was reimbursed by the State of California, Governor's Office of Emergency Services, Fire and Rescue Branch for providing mutual aid services for the Grass Valley Fire, Rice Fire, Witch Fire, Slide Fire, Santiago Fire, Prado Fire, Angel Fire, Lick Fire, Stevens Fire, Zaca 2 Fire, Zaca Fire and Tar Fire, all in California.

The program revenues that fall under the category of "Charges for Service" include revenues for ambulance service fees, inspection fees, weed abatement charges, CPR classes and reports/photocopies. Of these revenues, ambulance service fees are the District's second most important source of revenue. The revenue received for ambulance services increased by 1% or \$28,251 from the prior fiscal year. The revenue generated from various lease agreements (utility towers at various stations) increased slightly due to CPI adjustments.

General Revenues

The primary source of revenue for the operation of the San Ramon Valley Fire Protection District is generated through the collection of secured, unsecured and supplemental property taxes. During the last fiscal year, the overall assessed valuation increased 8.2%, resulting in property taxes revenues increasing by \$1,207,660 or 2.5%. This is the lowest increase in property taxes in the last five years. The Dougherty Valley planned community continues to build at a much slower rate then previous projected because of the decline in the housing market. The District's interest earnings showed a slight increase but interest rates declined during the fiscal year.

Government Activities

Governmental Funds

At June 30, 2008, the District's governmental funds reported combined fund balances of \$43,504,592 which is a decrease of \$1,033,550 or 2.3% compared to the prior year. This change is attributable to an increase of \$697,248 in the General Fund and a decrease of \$1,730,798 to the Capital Projects Fund, the Special Revenue Equipment Replacement Fund and Debt Service Fund associated with proceeds from a Certificate of Participation and equipment lease agreement.

Governmental fund revenues increased \$1,276,240 this fiscal year and totaled \$54,601,652. The General Fund accounted for all of this increase. The expenditures for the Governmental Funds were \$55,635,202, an increase of \$6,193,679 from last year. The Capital Projects expenditures increased by \$3,263,920; the Special Revenue Equipment Replacement Fund expenditures decreased by \$3,309,976; and the Debt Service Fund increased by \$231,154. The General Fund increased in expenditures by \$6,008,581.

Major Analyses of Governmental Funds

General Fund

The General Fund is the general operating fund of the District. It is used to account for all financial resources. The major revenue sources are property taxes, ambulance service revenues and interest income.

Overall, the General Fund expenditures increased by 14% from last year. This increase is attributable to salaries and benefits, and providing staffing for an additional two person ambulance that went into service in July 2007.

The net "transfers out" from the General Fund increased by \$1,786,524 in fiscal year 2008, for a total of \$4,429,770. The transfers covered annual debt service payments, various capital project expenditures in the Capital Project Funds and a portion of the equipment purchases in the Special Revenue Equipment Replacement Fund.

At June 30, 2008, the General Fund unreserved fund balance of \$35,865,236 was designated for: (1) Workers' compensation claims set aside in the amount of \$1,000,000; (2) Dry spell (cash flow for five months) in the amount of \$15,000,000. set aside for expenditures prior to the receipt of the first settlement property tax allocations in December; (3) Acquisition and construction of facilities and equipment in the amount of \$19,862,161. The net change in unreserved fund balance was an increase of \$697,248 or 2% from the prior year.

The Reserve Policy adopted by the Board provides for cash flow requirements, contingencies for unforeseen operating or capital needs and economic uncertainties, local disasters or catastrophic events and other financial hardships or downturns in the local, state or national economy. For this purpose, the Policy identified the need to maintain a minimum ending fund balance of at least 50% of the operating revenues in the General Fund. At the end of the fiscal year, the unreserved, but designated fund balance was well within the reserve policy, or 66% of operating revenues.

OTHER MAJOR GOVERNMENTAL FUNDS

Other Governmental Funds

The District has a number of projects both completed and in progress totaling to \$3,695,868, which include work on the design and development of the new Fire Station #32, construction of the Apparatus Storage Building and the new Fire Station #36, as well as, installation of a fence at Station #30, and various miscellaneous projects.

In the Special Revenue Equipment Replacement Fund, the District purchased assets amounting to \$426,945. The primary expenditures were for: cubicle remodeling, (6) defibrillators and accessories, fitness equipment, Hazard House Model, plymovent, hydraulic box/pan and (2) golf card trailers.

CAPITAL ASSETS

At the end of fiscal year 2008, the District had \$27,537,422 in net capital assets. The following table identifies the specific governmental activity:

Table 3
Capital Assets at Year-end
(in thousands)

	Government Activities	
	2007	2008
Land	\$4,830	\$5,906
Construction work-in-progress	2,712	2,780
Buildings and improvements	17,820	17,865
Equipment	23,437	23,824
Less accumulated depreciation	(23,452)	(22,838)
Capital Assets, net	\$22,347	\$27,537

All the capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Contributed capital assets are valued at their estimated fair market value on the date contributed. Capital assets with a value of \$5,000 or more are recorded as capital assets. All capital assets are depreciated over their estimated useful lives, using the straight line method. For additional detail on capital assets see Note 3.

DEBT ADMINISTRATION

The Debt Service Fund maintains the Reserve for the 2003 Refunding Certificates of Participation and the 2006 Certificates of Participation. In fiscal 2007-2008, the fund paid principal and interest on the 2003 issue in the amount of \$490,000 and \$240,633, respectively. The principal payment on the 2006 issue totaled \$165,000 and interest of \$434,329. Debt service was also paid on the two equipment lease/purchase agreements, totaling to \$976,221 in principal and \$185,230 in interest (see Note 5).

Table 4 Outstanding Debt (in thousands)

	2007	2008
Governmental activities		
Certificates of Participation	\$17,080	\$16,425
Equipment Capital Lease Purchase Agreements	4,939	3,962
	\$22,019	\$20,387

ECONOMIC OUTLOOK

The District's financial position continues to be adequate. Financial planning is based on specific assumptions from recent trends in real property values, new commercial and residential development, State of California economic forecasts and historical growth patterns in the various tax rate areas in the San Ramon Valley.

The economic condition of the San Ramon Valley Fire Protection District as it appears on the balance sheet reflects financial stability and increased growth but at a slower rate than in the previous five years. The Dougherty Valley continues to develop within the District, but at a much slower rate, due to the decline in the housing market. Despite the slowdown in the housing market, the assessed valuation in Contra Costa County increased during FY 2007-2008 by 8.2%, but the projections for FY 2008-2009 is only 3.94%. The District will continue to maintain a watchful eye over expenditures and remain committed to sound fiscal management practices to deliver the highest quality service to the citizens of the area.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This Comprehensive Annual Financial Report is intended to provide citizens, taxpayers, investors, and creditors with a general overview of the District's finances. Questions about this report should be directed to the Administrative Services Department, at 1500 Bollinger Canyon Road, San Ramon, California, 94583.

STATEMENT OF NET ASSETS AND STATEMENT OF ACTIVITIES

The Statement of Net Assets and the Statement of Activities summarizes the entire District's financial activities and financial position. They are prepared on the same basis as is used by most businesses, which means they include all the District's assets and all its liabilities, as well as all its revenues and expenses. This is known as the full accrual basis—the effect of all the District's transactions is taken into account, regardless of whether or when cash changes hands, but all material internal transactions between District funds have been eliminated.

The Statement of Net Assets reports the difference between the District's total assets and the District's total liabilities, including all the District's capital assets and all its long-term debt. The Statement of Net Assets focuses the reader on the composition of the District's net assets, by subtracting total liabilities from total assets.

The Statement of Net Assets summarizes the financial position of all the District's Governmental Activities in a single column. The District's Governmental Activities include the activities of its General Fund, along with all its Special Revenue, Debt Service and Capital Projects Funds.

The Statement of Activities reports increases and decreases in the District's net assets. It is also prepared on the full accrual basis, which means it includes all the District's revenues and all its expenses, regardless of when cash changes hands. This differs from the "modified accrual" basis used in the Fund financial statements, which reflect only current assets, current liabilities, available revenues and measurable expenditures.

The format of the Statement of Activities presents the District's expenses first, listed by program. Program revenues—that is, revenues which are generated directly by these programs—are then deducted from program expenses to arrive at the net expense of each governmental program. The District's general revenues are then listed in the Governmental Activities column, as appropriate, and the Change in Net Assets is computed and reconciled with the Statement of Net Assets.

Both these Statements include the financial activities of the District and the San Ramon Valley Fire Protection District Financing Corporation, which is legally separate but is a component unit of the District because it is controlled by the District, which is financially accountable for the activities of this entity.

FUND FINANCIAL STATEMENTS

The Fund Financial Statements present individual major funds, while non-major funds (if any) are combined in a single column. Major funds are defined generally as having significant activities or balances in the current year.

MAJOR GOVERNMENTAL FUNDS

The funds described below were determined to be Major Funds by the District in fiscal 2008.

GENERAL FUND

The General Fund is the general operating fund of the District. It is used to account for all financial resources. The major revenue sources for this Fund are property taxes, ambulance service revenues and interest income. Expenditures are made for public safety and other operating expenditures.

CAPITAL PROJECTS FUND

The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities. Resources are provided by General Fund transfers and interest income on unspent funds.

SPECIAL REVENUE - EQUIPMENT REPLACEMENT FUND

The Special Revenue Equipment Replacement Fund is used to account for financial resources to be used for the replacement of equipment and vehicles. Resources are provided by transfers and interest income on unspent funds.

DEBT SERVICE FUND

The Debt Service Fund is used to account for accumulation of resources for, and the payment of long-term debt principal, interest and related costs. Resources are provided by General Fund transfers, bond proceeds and interest income on unspent funds.

SAN RAMON VALLEY FIRE PROTECTION DISTRICT GOVERNMENTAL FUNDS BALANCE SHEET JUNE 30, 2008

Reconciliation of the GOVERNMENTAL FUNDS -- BALANCE SHEET with the

STATEMENT OF NET ASSETS JUNE 30, 2008

Total fund balances reported on the governmental funds balance sheet

\$43,504,592

Amounts reported for Governmental Activities in the Statement of Net Assets are different from those reported in the Governmental Funds above because of the following:

CAPITAL ASSETS

Capital assets used in Governmental Activities are not current assets or financial resources and therefore are not reported in the Governmental Funds.

27,537,422

LONG-TERM ASSETS AND LIABILITIES

The assets and liabilities below are not due and payable in the current period and therefore are not reported in the Funds:

 Long-term debt
 (20,387,434)

 Claims payable
 (844,993)

 Compensated absences
 (1,723,458)

NET ASSETS OF GOVERNMENTAL ACTIVITIES

\$48,086,129

Reconciliation of the

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS

with the

STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2008

The schedule below reconciles the Net Change in Fund Balances reported on the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balance, which measures only changes in current assets and current liabilities on the modified accrual basis, with the Change in Net Assets of Governmental Activities reported in the Statement of Activities, which is prepared on the full accrual basis.

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS

(\$1,033,550)

Amounts reported for governmental activities in the Statement of Activities are different because of the following:

CAPITAL ASSETS TRANSACTIONS

Governmental Funds report capital outlays as expenditures. However,

in the Statement of Activities the cost of those assets is capitalized and allocated over their estimated useful lives and reported as depreciation expense.

The capital outlay expenditures are therefore added back to fund balance	4,146,189
Net retirements of capital assets are deducted from fund balance	(23,964)
Depreciation expense is deducted from the fund balance	(1,931,562)

LONG-TERM DEBT PROCEEDS AND PAYMENTS

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Assets. Repayment of bond principal is an expenditure in the governmental funds, but in the Statement of Net Assets the repayment reduces long-term liabilities.

Repayment of debt principal is added back to fund balance

1,631,221

ACCRUAL OF NON-CURRENT ITEMS

The amounts below included in the Statement of Activities do not provide or (require) the use of current financial resources and therefore are not reported as revenue or expenditures in governmental funds (net change):

Compensated absences	(300,416)
Claims payable	(293,150)

CHANGE IN NET ASSETS OF GOVERNMENTAL ACTIVITIES

\$2,194,768

FIDUCIARY FUND

GASB Statement 34 requires that Fiduciary Funds be presented separately from the Government-wide and Fund financial statements.

AGENCY FUND

Agency funds are used to account for assets held by the District as an agent for individuals, private organizations, and other governments. The financial activities of these funds are excluded from the Entity-wide financial statements, but are presented in separate Fiduciary Fund financial statements.

Notes to Basic Financial Statements For the Year Ended June 30, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Organization and Description

The San Ramon Valley Fire Protection District (the District) is a Special District organized under the California Health and Safety Code. The District is responsible for the protection of the lives and property of the residents of the San Ramon Valley located in the southwest portion of Contra Costa County, California.

The District furnishes fire protection, rescue service and other emergency services to an area approximating 155 square miles, including the communities of Alamo, Blackhawk, the Town of Danville, Diablo, the City of San Ramon, the southern area of the Morgan Territory and the Tassajara Valley.

The District is governed by a Board of Directors consisting of five members elected by the voters in its service area. The Board appoints a Fire Chief to oversee the day-to-day operations of the District.

The District maintains its headquarters at 1500 Bollinger Canyon Road, San Ramon, California 94583.

B. Reporting Entity

The accompanying financial statements of the District include the financial activities of the District as well as the San Ramon Valley Fire Protection District Financing Corporation (Corporation), which is controlled by and dependent on the District. The Corporation's purpose is to assist with the financing of fire protection facilities within the District. While the Corporation is a separate legal entity, the District Board serves in a separate section as its governing body and its financial activities are integral to those of the District. The financial activities of the Corporation have been aggregated and merged (termed "blended") with those of the District in the accompanying financial statements.

C. Basis of Presentation

The District's Basic Financial Statements are prepared in conformity with accounting principles generally accepted in the United States of America. The Government Accounting Standards Board is the acknowledged standard setting body for establishing accounting and financial reporting standards followed by governmental entities in the United States of America.

These Statements require that the financial statements described below be presented.

Government-wide Statements: The Statement of Net Assets and the Statement of Activities display information about the primary government (the District) and its component unit. These statements include the financial activities of the overall District government. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

Notes to Basic Financial Statements For the Year Ended June 30, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs, (b) grants and contributions that are restricted to meeting the operational needs of a particular program and (c) fees, grants and contributions that are restricted to financing the acquisition or construction of capital assets. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the District's funds, including blended component units. Separate statements for each fund category—governmental and fiduciary—are presented. The emphasis of fund financial statements is on major individual governmental funds, each of which is displayed in a separate column.

D. Major Funds

Major funds are defined as funds that have either assets, liabilities, revenues or expenditures/expenses equal to ten percent of their fund-type total and five percent of the grand total. The General Fund is always a major fund. The District may also select other funds it believes should be presented as major funds.

The District reported the following major governmental funds in the accompanying financial statements:

General Fund - The General Fund is the general operating fund of the District. It is used to account for all financial resources. The major revenue sources for this Fund are property taxes, ambulance service revenues and interest income. Expenditures are made for public safety and other operating expenditures.

Capital Projects Fund – The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities. Resources are provided by General Fund transfers, bond proceeds, and interest income on unspent funds.

Special Revenue – **Equipment Replacement Fund** – The Special Revenue – Equipment Replacement Fund is used to account for financial resources to be used for the replacement of equipment and vehicles. Resources are provided by General Fund transfers and interest income on unspent funds.

Debt Service Fund – The Debt Service Fund is used to account for accumulation of resources for, and the payment of long-term debt principal, interest and related costs. Resources are provided by General Fund transfers and interest income on unspent funds.

Notes to Basic Financial Statements For the Year Ended June 30, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The District also reports the following fund type:

Fiduciary Fund - Agency Funds are used to account for assets held by the District as an agent for individuals, private organizations, and other governments. The financial activities of these funds are excluded from the Entity-wide financial statement, but are presented in separate Fiduciary Fund financial statements.

E. Basis of Accounting

The government-wide financial statements are reported using the *economic resources* measurement focus and the full accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

Governmental funds are reported using the *current financial resources* measurement focus and the *modified accrual* basis of accounting. Under this method, revenues are recognized when *measurable* and *available*. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. Governmental capital asset acquisitions are reported as *expenditures* in governmental funds. Proceeds of governmental long-term debt and acquisitions under capital leases are reported as *other financing sources*.

Non-exchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include taxes, grants, entitlements, and donations. On the accrual basis, revenue from taxes is recognized in the fiscal year for which the taxes are levied or assessed. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The District may fund programs with a combination of cost-reimbursement grants and general revenues. Thus, both restricted and unrestricted net assets may be available to finance program expenditures. The District's policy is to first apply restricted grant resources to such programs, followed by general revenues, if necessary.

F. Budgets and Budgetary Accounting

The Board of Directors adopts a final budget prior to July 1. The budget includes appropriations (budgeted expenditures) on a line-item basis and the means of financing them (budgeted revenues).

Formal budgetary integration is employed as a management control device during the year for all funds. Budgeted and actual revenues and expenditures are reviewed monthly by the Board and budget amendments and transfers are made as needed. The Finance Supervisor monitors appropriations on a Department/Division basis and conveys this information to the Fire Chief/Treasurer who can approve appropriation transfers so long as appropriations in total by fund do not change. This approach allows the Fire Chief to hold Department/Division heads accountable. The District reports expenditures and appropriations on a line-item basis to its Board.

Notes to Basic Financial Statements For the Year Ended June 30, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Only the Board may approve amendments to appropriations in total by fund. This approach allows the Board to hold the Fire Chief accountable for the overall District operations.

Budgets are adopted on a basis consistent with generally accepted accounting principles for all funds. Budgeted amounts presented in the financial statements are as originally adopted and as amended by the Board. Supplemental amendments to the budget were adopted by the Board and have been included in the budget versus actual statement. Appropriations lapse at year end.

G. Property Taxes

Revenue is recognized in the fiscal year for which the tax and assessment is levied. The County of Contra Costa levies, bills and collects property taxes for the District; the County remits the entire amount levied and handles all delinquencies, retaining interest and penalties. Secured and unsecured property taxes are levied on January 1 of the preceding fiscal year.

Secured property tax is due in two installments, on November 1 and February 1, and becomes a lien on those dates. It becomes delinquent on December 10 and April 10, respectively. Unsecured property tax is due on July 1 and becomes delinquent on August 31.

The term "unsecured" refers to taxes on personal property other than real estate, land and buildings. These taxes are secured by liens on the personal property being taxed.

Property tax revenue is recognized in the fiscal year for which the tax is levied. The County distributes property tax (termed "settlements") under the Teeter Plan, which allows the District to receive all property taxes in the year in which they are levied. The County retains any collections of interest, penalties and delinquencies under this plan. A settlement apportionment for 95% of unsecured property taxes is received in October, with the remainder distributed in June. Secured property taxes are received in three settlements and apportioned as follows: 50% in December, 38% in April and 6% in June. The District also received a one time "true-up" payment from the County for the December 2007 property tax settlement in January 2008 for the remaining 6%.

H. Accumulated Compensated Absences

Compensated absences comprise unpaid vacation leave, administrative leave, and compensating time off, which are accrued as earned. The District's liability for compensated absences is recorded in various Governmental activities. The liability for compensated absences is determined annually.

I. Capital Assets and Depreciation

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Contributed capital assets are valued at their estimated fair market value on the date contributed. Capital assets with a value of \$5,000 or more are recorded as capital assets.

Notes to Basic Financial Statements For the Year Ended June 30, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital assets with limited useful lives are depreciated over their estimated useful lives. Alternatively, the "modified approach" may be used for certain capital assets. Depreciation is not provided under this approach, but all expenditures on these assets are expensed, unless they are additions or improvements.

The purpose of depreciation is to spread the cost of capital assets equitably among all users over the life of these assets. The amount charged to depreciation expense each year represents that year's pro rata share of the cost of capital assets.

Depreciation is provided using the straight-line method which means the cost of the asset is divided by its expected useful life in years and the result is charged to expense each year until the asset is fully depreciated. The District has assigned the useful lives listed below to capital assets:

> Buildings 40 years Improvements 20-40 years Equipment 5-20 years

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds over the same period.

NOTE 2 – CASH AND INVESTMENTS

The District pools cash from all sources and all funds except Cash with Fiscal Agent so that it can be invested at the maximum yield, consistent with safety and liquidity, while individual funds can make expenditures at any time. The District's investments are carried at fair value, as required by generally accepted accounting principles.

The District adjusts the carrying value of its investments to reflect their fair value at each fiscal year end, and it includes the effects of these adjustments in income for that fiscal year.

Cash and investments as of June 30, 2008 are classified in the financial statements as shown below, based on whether or not their use is restricted under the terms of District debt instruments or Agency agreements.

2008
\$39,001,619
400
7,604,373
46,606,392
7,667
\$46,614,059

The District's carrying value of cash in banks and cash on hand was \$8,170,538 and \$400, respectively, at June 30, 2008.

Notes to Basic Financial Statements For the Year Ended June 30, 2008

NOTE 2 – CASH AND INVESTMENTS (Continued)

A. Investments Authorized by the California Government Code and the District's Investment Policy

The Authority is authorized to invest in the following types of instruments as permitted by the California Government Code, or the Authority's investment policy where it is more restrictive:

Permitted Investments/Deposit	Maximum Maturity
California Local Agency Investment Fund	N/A
Securities of the U.S. Government	5 years
Public Agency's Pooled Investment Fund	N/A
Insured Certificates of Deposit (CD's)	5 years
CD's adequately collateralized by the institution issuing the certificate	5 years
Passbook Savings and Money Market Accounts	N/A

B. Investments Authorized by Debt Agreements

The District must maintain required amounts of cash and investments with trustees or fiscal agents under the terms of certain debt issues. These funds are unexpended bond proceeds or are pledged reserves to be used if the District fails to meet its obligations under these debt issues. The California Government Code requires these funds to be invested in accordance with District resolutions, bond indentures or State statutes. The table below identifies the investment types that are authorized for investments held by fiscal agents.

	Minimum	
Permitted Investment/Deposit	Credit Quality	Maximum Maturity
Federal Securities	None	None
Obligations of federal agencies which represent full faith and credit of the United States of America	None	None
Bonds, notes or other evidences of indebtedness by the Federal National Mortgage Association or the Federal Home Loan Mortgage Corporation	AAA by S&P and Aaa by Moody's	3 years
U.S. dollar denominated deposit accounts, federal funds, and banker's acceptances with domestic commercial banks	A-1 or A-1+ by S&P and P-1 by Moody's	360 Days
Commercial Paper	A-1+ by S&P, P-1 by Moody's	270 days
Money Market Fund	AAAm or AAAm-G or better by S&P	None
Obligations of any states of the U.S. or local municipalities, with certain restrictions	Highest rating category	None
Investment agreements, with certain restrictions	None	None
California Local Agency Investment Fund	None	None
Any other investments proposed by the District, with the approval of the bond insurance agent	N/A	N/A

Notes to Basic Financial Statements For the Year Ended June 30, 2008

NOTE 2 – CASH AND INVESTMENTS (Continued)

C. Local Agency Investment Fund (LAIF)

At June 30, 2008, the District had \$30,838,748 invested in LAIF. The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. Included in LAIF's investment portfolio are collateralized mortgage obligations, mortgage-backed securities, other asset-backed securities, loans to certain state funds, and floating rate securities issued by federal agencies, government-sponsored enterprises and corporations. As of June 30, 2008, LAIF had an average maturity of 212 days. As of June 30, 2008, LAIF was not rated.

D. Cash with Fiscal Agent

Under the terms of the indentures of trust issued pursuant to the 2003 and 2006 Certificates of Participation (See Note 5), a fiscal agent is holding funds for debt service reserves. The funds are to be used in the event the District lease payments are insufficient to pay debt service due on the COPS. As of June 30, 2008, the balance with the fiscal agent for the 2003 COPS amounted to \$746,323, which had been invested in the First American Treasury Obligation Class D Money Market Fund. As of June 30, 2008, this money market fund was rated Aaa by Moody's and had an average maturity of 19 days.

Under the terms of an indenture of trust issued pursuant to the 2006 Certificates of Participation (See Note 5), a fiscal agent is holding funds, on behalf of the District, for certain capital asset acquisitions. As of June 30, 2008, \$6,858,050 remained with the agent, which was invested in the First American Treasury Obligation Class D Money Market Fund. As of June 30, 2008, this money market fund was rated AAAm by Standard & Poor's and had an average maturity of 19 days.

Notes to Basic Financial Statements For the Year Ended June 30, 2008

NOTE 3 – CAPITAL ASSETS

A. Capital Asset Additions and Retirements

Capital assets activity comprised the following:

	Balance at				Balance at
	June 30, 2007	Additions	Retirements	Transfers	June 30, 2008
Governmental Activities:					
Capital assets not being depreciated:					
Land	\$4,830,018	\$1,075,784			\$5,905,802
Construction in process	2,712,328	2,575,254		(\$2,507,427)	2,780,155
Total capital assets not being depreciated	7,542,346	3,651,038		(2,507,427)	8,685,957
Capital assets being depreciated:					
Buildings and improvements	17,819,841	45,123			17,864,964
Equipment	23,436,763	450,028	(\$2,570,000)	\$2,507,427	23,824,218
Total capital assets being depreciated	41,256,604	495,151	(2,570,000)	2,507,427	41,689,182
Less accumulated depreciation for:					
Buildings and improvements	(9,680,887)	(398,376)			(10,079,263)
Equipment	(13,771,304)	(1,533,186)	2,546,036		(12,758,454)
Total accumulated depreciation	(23,452,191)	(1,931,562)	2,546,036		(22,837,717)
Net Capital assets being depreciated	17,804,413	(1,436,411)	(23,964)	2,507,427	18,851,465
Governmental activity capital assets, net	\$25,346,759	\$2,214,627	(\$23,964)		\$27,537,422

Notes to Basic Financial Statements For the Year Ended June 30, 2008

NOTE 4 – COMPENSATED ABSENCES

The changes of the compensated absences were as follows:

	Governmental Activities
Beginning Balance, at July 1, 2007 Additions	\$1,423,042 1,880,274
Payments made during fiscal year	(1,579,858)
Ending Balance, at June 30, 2008	\$1,723,458
Current Portion	\$333,205

The long-term portion of governmental activities compensated absences is liquidated primarily by the General Fund.

NOTE 5 – LONG-TERM DEBT

The District generally incurs long-term debt to finance projects or purchase assets that will have useful lives equal to or greater than the related debt. This debt will be repaid only out of governmental funds but is not accounted for in these funds because this debt does not require an appropriation or expenditure in this accounting period.

The District's debt issues and transactions are summarized below:

	Original Issue Amount	Balance June 30, 2007	Retirements	Balance June 30, 2008	Current Portion
Governmental Activity Debt					
2003 Certificates of Participation					
2%-4%, due 8/01/19	\$9,015,000	\$7,595,000	\$490,000	\$7,105,000	\$500,000
2006 Certificates of Participation					
3.5%-5%, due 8/01/36	9,485,000	9,485,000	165,000	9,320,000	170,000
Lease Purchase Agreement					
Agreement 2.94% - 3.43%, due 5/15/12	6,835,000	4,938,655	976,221	3,962,434	936,418
Total Governmental Activity Debt	\$25,335,000	\$22,018,655	\$1,631,221	\$20,387,434	\$1,606,418

A. 2003 Refunding Certificates of Participation

The District leases its Administrative Office and Fire Stations 31, 33 and 38 under a non-cancelable lease extending to July 1, 2019. Under this lease, the District makes semi-annual payments, which are sufficient to pay the principal and interest on the 2003 Refunding Certificates of Participation (COPs). The cost of the buildings and the balance of the debt evidenced by the COPs have been included in the District's financial statements as this lease is in essence a financing arrangement, with ownership of the financed assets reverting to the District at its conclusion. Interest is payable semi-annually each February 1 and August 1. Principal payments are due each August 1.

Notes to Basic Financial Statements For the Year Ended June 30, 2008

NOTE 5 – LONG-TERM DEBT (Continued)

B. 2006 Certificates of Participation

In March 2006, the San Ramon Valley Fire Protection District Financing Corporation issued Certificates of Participation in the original principal amount of \$9,485,000, and bearing interest at 3.5-5%. Bond proceeds would be used to finance the design and construction of three new fire stations, the acquisition of land for two of these fire stations, and the construction of an apparatus storage building at an existing fire station. Under a non-cancelable lease of these assets extending to August 1, 2046, the District makes semi-annual payments February 1 and August 1 from any source of available funds of the District which are sufficient to pay the principal and interest on the 2006 Certificates of Participation. Ownership of the leased premises reverts to the District at the end of the lease. The costs of the assets securing this lease and the balance of the debt evidenced by the 2006 Certificates of Participation have been included in the District's financial statements as this lease is in essence a financing arrangement, with ownership of the financed assets reverting to the District at its conclusion.

C. Lease Purchase Agreement

On November 23, 2004 the District entered into a lease purchase agreement with LaSalle Bank National Association. The lease purchase agreement consists of three lease schedules that total \$6,835,000 for the purchase of a number of fire engines and other service vehicles. Ownership of the vehicles passes to the District at the end of the leases. Since the leases are in essence financing arrangements, the cost of the fire engines, vehicles and the amount of the leases have been included in the District's financial statements.

The leases are payable from general fund revenues of the District. Interest and principal are payable annually on December 22 and May 15 until May 15, 2012.

D. Debt Service Requirements

The District's debt service requirements are presented below:

For The Year Ending June 30	Principal	Interest
2009	\$1,606,418	\$807,816
2010	1,661,650	754,859
2011	1,713,212	698,204
2012	1,776,154	638,006
2013	750,000	574,708
2014-2018	4,180,000	2,450,853
2019-2023	2,740,000	1,689,281
2024-2028	1,680,000	1,287,238
2029-2033	2,145,000	812,125
2034-2037	2,135,000	220,125
Total payments due	\$20,387,434	\$9,933,215

Notes to Basic Financial Statements For the Year Ended June 30, 2008

NOTE 6 - INTERFUND TRANSACTIONS

A. Transfers Between Funds

With Board approval, resources may be transferred from one fund to another. Transfers between funds during the fiscal year ended June 30, 2008 were as follows:

		Amount
Fund Receiving Transfers	Fund Making Transfers	Transferred
Debt Service Fund	General Fund	\$2,458,299 (A)
Capital Projects Fund	General Fund	2,470,614 (B)
Special Revenue	General Fund	505,480 (C)
- Equipment Replacement Fund		
Capital Projects Fund	Debt Service Fund	26,716 (B)
General Fund	Capital Projects Fund	987,303 (B)
General Fund	Special Revenue	17,320 (C)
	- Equipment Replacement Fund	
Total Interfund Transfers		\$6,465,732

- (A) To fund debt services
- (B) To fund capital projects
- (C) To fund equipment purchases

B. Due to Other Funds

Current interfund balances arise in the normal course of business and are expected to be repaid shortly after the end of the fiscal year. At June 30, 2008, the General Fund owed the Capital Projects Fund \$50,760.

NOTE 7 – NET ASSETS AND FUND BALANCES

Net Assets are on the full accrual basis while Fund Balances are measured on the modified accrual basis.

A. Net Assets

Net Asset is the excess of all the District's assets over all its liabilities, regardless of fund. Net Assets are divided into three captions. These captions apply only to Net Assets, which is determined only at the Government-wide level, and are described below:

Invested in Capital Assets, net of related debt describes the portion of Net Assets which is represented by the current net book value of the District's capital assets, less the outstanding balance of any debt issued to finance these assets.

Restricted describes the portion of Net Assets which is restricted as to use by the terms and conditions of agreements with outside parties, governmental regulations, laws, or other restrictions which the District cannot unilaterally alter. These principally include debt service and acquisition and construction of facilities and equipment.

Unrestricted describes the portion of Net Assets which is not restricted to use.

Notes to Basic Financial Statements For the Year Ended June 30, 2008

NOTE 7 – NET ASSETS AND FUND BALANCES (Continued)

B. Fund Balance

Fund balances consist of reserved and unreserved amounts. Reserved fund balances represent portions of fund balances, which are legally segregated for specific future uses. The remaining portion is unreserved. As of June 30, 2008, fund balance had been reserved for debt service to reflect the portion of fund balance legally segregated for the repayment of debt service on the Certificates of Participation, acquisition and construction of facilities and equipment, and prepaid items and deposits.

Unreserved fund balance may be designated to indicate District plans for financial resource use in a future period, such as for general contingencies or capital projects. Such plans are subject to change by the District at its discretion.

Fund balance designations are summarized below:

Designated for Workers' Compensation represents the portion of fund balance the District has set aside to pay for future workers' compensation claims.

Designated for Dry Spell (Cash Flow) represents the portion of fund balance set aside to cover expenditures during the future "dry-spell" prior to the receipt of the first settlement of property tax allocations in December.

Designated for Acquisition and Construction of Facilities and Equipment represents the portion of fund balance set aside to pay for capital outlays and equipment replacement needs identified as part of the District's capital improvement plans.

NOTE 8 - PENSION PLAN

Substantially, all qualified permanent and probationary District employees are eligible to participate in pension plans offered by Contra Costa County Employee Retirement Association (CCCERA), a cost sharing multiple employer defined benefit pension plan which acts as a common investment and administrative agent for its participating member employers. CCCERA provides retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries.

Notes to Basic Financial Statements For the Year Ended June 30, 2008

NOTE 8 - PENSION PLAN (Continued)

Benefit provisions under the Plan are established by State statute and County resolution. Benefits are based on years of credited service, equal to one year of full time employment. Funding contributions for the Plan are determined annually on an actuarial basis by CCCERA; the District must contribute these amounts. The Plan's provisions and benefits in effect at July 1, 2007, are summarized as follows:

Safety	Non-Safety
5 years service	5 years service
Monthly for life	Monthly for life
50	55
3%	2%
16.24%-18.91%	10.40%-12.99%
61.20%	33.90%
	5 years service Monthly for life 50 3% 16.24%-18.91%

The Districts pays a portion of employee contributions calculated on base pay. The remainder of employee contributions are paid by each employee.

The District paid actuarially required contributions and related rates for the last three fiscal year were as follows:

	Amounts	Rates
2008	\$11,055,922	33.90% to 61.20%
2007	10,836,401	32.34% to 59.24%
2006	9,179,750	29.86% to 55.22%

These contributions approximated 6.15% of total plan contributions from all members participating in CCCERA. Retirement age varies and is based on different criteria, as described in the plan.

CCCERA determines contribution requirements using a modification of the Entry Age Normal Method. Under this method, the District's total normal benefit cost for each employee from date of hire to date of retirement is expressed as a level percentage of the related total payroll cost. Normal benefit cost under this method is the level amount the employer must pay annually to fund an employee's projected retirement benefit. This level percentage of payroll method is used to amortize any unfunded actuarial liabilities. The actuarial assumptions used to compute contribution requirements are also used to compute the actuarially accrued liabilities.

CCCERA uses the market related value method of valuing the Plan's assets. As of December 31, 2006, an investment rate of return of 7.80% is assumed, including inflation at 3.75%. Annual salary increases are assumed to vary by duration of service and annual retirement benefit increases are assumed to be 6.66%. The unfunded actuarial accrued liability is being amortized as a level percentage of payroll on a closed basis. The remaining amortization period ends June 30, 2022.

Notes to Basic Financial Statements For the Year Ended June 30, 2008

NOTE 8 - PENSION PLAN (Continued)

Trend information for the District is not available. Complete trend data is available in separately issued financial statements of the plan which can be obtained from CCCERA located at 1355 Willow Way, Suite 221, Concord, California. Three year trend data as of December 31 for the entire Plan is presented below (in thousands):

	Actuarial (Dolla	ers in Thousands)				
						Unfunded
	Entry Age				Annual	(Overfunded)
Valuation	Accrued	Value of	Unfunded	Funded	Covered	Liability as
Date	Liability	Assets	Liability	Ratio	Payroll	% of Payroll
2004	\$4,481,243	\$3,673,858	\$807,385	82.0%	\$619,132	130.406%
2005	4,792,428	4,062,057	730,371	84.8%	627,546	116.385%
2006	5,293,977	4,460,871	833,106	84.3%	653,953	127.395%

NOTE 9 – POSTEMPLOYMENT HEALTH CARE BENEFITS

The District provides health care benefits for 92 retired employees. Substantially, all of the District's employees may become eligible for those benefits if they reach the normal retirement age while working for the District. The cost of retiree health care benefits is recognized as an expenditure as health care premiums are paid. For the year ended June 30, 2008, those costs totaled \$1,214,235.

NOTE 10 - DEFERRED COMPENSATION PLAN

District employees may defer a portion of their compensation under two District sponsored Deferred Compensation Plans created in accordance with Internal Revenue Code Section 457. Under these plans, participants are not taxed on the deferred portion of their compensation until distributed to them; distributions may be made only at termination, retirement, and death or in an emergency as defined by the Plans.

The laws governing deferred compensation plan assets require plan assets to be held in a Trust for the exclusive benefit of plan participants and their beneficiaries. Since the assets held under these plans are not the District's property, are not managed by the District, and are not subject to claims by general creditors of the District, they have been excluded from these financial statements.

NOTE 11 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts theft of, damage to and destruction of assets, errors and omission, injuries to employees, and natural disasters. The District retains risk (a deductible) for a portion of losses arising from general liability, property, workers' compensation and auto liability losses. Once the District's deductible is met, insurance providers become responsible for payment of all claims up to the coverage limit. The District participates in the Contra Costa County Risk Management Program, a member of CSAC, a public entity risk pool which provides insurance coverage to participating members. The District also has insurance coverage though insurance polices with commercial insurance companies.

Notes to Basic Financial Statements For the Year Ended June 30, 2008

NOTE 11 - RISK MANAGEMENT (Continued)

The District did not have any claim settlements that exceed the insurance coverage in the last three years. A summary of the District's insurance is as follows:

Coverage	Insurance Company/ Risk Pool	Limit of Liability	Deductible/ SIR
Workers' Compensation	Insurance Co.	\$25,000,000	\$750,000
All Risk Property	CSAC	1,725,000,000 (flood)	100,000 (flood)
		1,725,000,000 (property)	500 disappearing (aop)
Earthquake	CSAC	412,500,000	5% per "unit", \$100,000
			minimum
Boiler & Machinery	CSAC	100,000,000	5,000
Sabotage & Terrorism	CSAC	200,000,000	500,000
General & Automobile Liability	CSAC	25,000,000	None
Pollution Liability	CSAC	10,000,000	500,000
Employee Dishonesty	Insurance Co.	10,000,000	50,000

CSAC is governed by a Board consisting of representatives from member municipalities. The Board controls the operations of CSAC, including selection of management and approval of operating budgets, independent of any influence by member municipalities beyond their representation on the Board.

As of June 30, 2008, the District's third party administrator responsible for processing Workers' Compensation claims determined that the liability for unpaid claims amounted to \$824,993. As of that same date, management estimated the liability for unpaid claims for the other types of losses discussed above, including a provision for losses incurred but not reported amounted to be \$20,000. These losses will be paid from future resources; therefore, these liabilities have been accounted for in governmental activities. Changes to these claims payable are disclosed below:

	Fiscal Year 2007-08	Fiscal Year 2006-07
Balance, July 1	\$551,843	\$646,161
Current year claims and estimated changes in claims payable	647,632	146,332
Claims paid	(354,482)	(240,650)
Balance, June 30	\$844,993	\$551,843

Notes to Basic Financial Statements For the Year Ended June 30, 2008

NOTE 12 - CONTINGENT LIABILITIES AND COMMITMENTS

The District participates in Federal and State grant programs. These programs have been audited through the fiscal year ended June 30, 2008 by the District's independent accountants in accordance with the provisions of the federal Single Audit Act amendments of 1996 and applicable State requirements. No cost disallowances were proposed as a result of these audits; however, these programs are still subject to further examination by the grantors and the amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time. The District expects such amounts, if any, to be immaterial.

The District is subject to litigation arising in the normal course of business. In the opinion of the District Attorney there is no pending litigation, which is likely to have a material adverse effect on the financial position of the District.

MAJOR GOVERNMENTAL FUNDS, OTHER THAN GENERAL FUND AND SPECIAL REVENUE FUND

Capital Projects Fund – The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities. Resources are provided by General Fund transfers, bond proceeds, and interest income on unspent funds.

Debt Service Fund – The Debt Service Fund is used to account for accumulation of resources for, and the payment of long-term debt principal, interest and related costs. Resources are provided by General Fund transfers and interest income on unspent funds.

AGENCY FUND

AGENCY FUND

Agency funds are used to account for assets held by the District as an agent for individuals, private organizations, and other governments. The financial activities of these funds are excluded from the Entity-wide financial statements, but are presented in separate Fiduciary Fund financial statements.

CERT PROGRAM

Accounts for grant monies received and expenditures incurred related to the CERT Program. The District acts as custodian for the operating resources of the entity.

STATISTICAL SECTION

This part of the District's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health. In contrast to the financial section, the statistical section information is not subject to independent audit.

Financial Trends

These schedules contain trend information to help the reader understand how the District's financial performance and well being have changed over time:

- 1. Net Assets by Component
- 2. Changes in Net Assets
- 3. Fund Balances of Governmental Funds
- 4. Changes in Fund Balance of Governmental Funds
- 5. General Expenditures by Function

Revenue Capacity

These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax:

- 1. General Revenues by Source
- 2. Assessed Value of Taxable Property
- 3. Assessed and Estimated Actual Value of Taxable Property
- 4. Property Tax Levies and Collections
- 5. Property Tax Rates, All Overlapping Governments
- 6. Principal Property Taxpayers

Debt Capacity

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future:

- 1. Ratio of Outstanding Debt by Type
- 2. Computation of Direct and Overlapping Debt
- 3. Computation of Legal Bonded Debt Margin

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place:

- 1. Demographic Statistics
- 2. Demographic and Economic Statistics

Operating Information

These schedules contain service data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs:

- 1. Summary of District Activities
- 2. Comparative Annual Graph -- Total Responses
- 3. Emergency Response Analysis
- 4. Emergency Response Detail Analysis
- 5. Emergency Responses Graph
- 6. Call Frequency Analysis

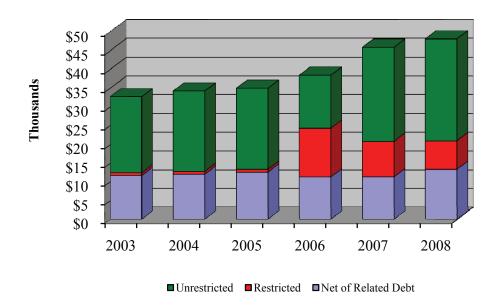

STATISTICAL SECTION (Continued)

- 7. Mutual Aid Fire Responses
- 8. Fire Prevention Activities
- 9. Training Hour for Suppression Personnel
- 10. Service Connected Illness/Injury Report
- 11. Operating Indicators by Function
- 12. Staff Summary

Sources

Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year. The District implemented GASB Statement 34 in 2003; schedules presenting government-wide information include information beginning in that year.

Source: Contra Costa County Auditor Controller Office Certificate of Assessed Valuations

- (a) The State Constitution requires property to be assessed at one hundred percent of the most recent purchase price, plus an increment of no more than two percent annually, plus any local over-rides. These values are considered to be full market values.
- (b) California cities do not set their own direct tax rate. The state constitution establishes the rate at 1% and allocates a portion of that amount, by an annual calculation, to all the taxing entities within a tax rate area. The City of Example encompasses more than 15 tax rate areas.

2006	1,154,942,899	0	1,154,942,899	0.00%
2007	1,154,942,899	0	1,154,942,899	0.00%
2008	1,249,724,140	0	1,249,724,140	0.00%

NOTE:

(a) California Government Code, Section 43605 sets the debt limit at 15%. The Code section was enacted prior to the change in basing assessed value to full market value when it was previously 25% of market value. Thus, the limit shown as 3.75% is one-fourth the limit to account for the adjustment of showing assessed valuation at full cash value.
